The WarrantyBAY Tire Protection Plan gives you a source of additional income while giving your customers an added layer of security and comfort.

The Tire Protection Plan is an independent tire dealer sponsored limited tire warranty. The proceeds from the sale of tire protection plans will belong to the member who sells the plan. Any road hazard or mileage claims that occur within the 25 mile radius of the dealer location will be the responsibility of the member who sold the plan. American Tire Distributors acts only as an administrator of the plan.

- An out of area claim applies when the customer travels more than 25 miles from the point of purchase and has a warranty claim.
- The WarrantyBAY claims administrator will reimburse dealers for handling out of area claims.
- Out of area claims that the administrator has approved and paid will not be billed back to the seller of the Tire Protection Plan.
- All dealers selling the Tire Protection Plan agree to imprint the plan with their name and address.
- The Tire Protection Plan is not for wholesale, 3rd party or internet sales
- The mileage portion of the Tire Protection Plan is optional and is determined by the dealer. Under no circumstances shall a dealer issue a warranty that exceeds these guidelines.
